## EXPERTS IN ADVANCED HEART CARE

Western Missouri Medical Center (WMMC) has teamed up with the region's quality health care leader **Saint Luke's Cardiovascular Consultants (SLCC)**, to bring area residents a higher level of care. Thanks to our clinical affiliation with Saint Luke's Health System, you can receive advanced cardiovascular care right here on our campus. Patients' care is coordinated by a team of board-certified cardiologists and a nurse practitioner at **Western Missouri Cardiology** who are dedicated to providing the very best care.

**Taking care of your ticker is critical.** After all, heart disease remains the leading cause of death for both men and women in the United States. At **Western Missouri Cardiology**, we work to minimize your risk for heart disease, stroke and other cardiovascular issues. Together, we'll explore your symptoms, discuss your family's health history, and consider the importance of screenings and diagnostic tests.

### Our team works with each patient to:

- Prevent and treat heart disease
- Discuss all available treatment options and recommend the best course of treatment
- Help manage treatment to ensure patients experience the best quality of life possible

## Advanced cardiovascular services closer to home.

At WMMC we're dedicated to providing advanced cardiovascular services to aid in early heart disease detection and prevention. Western Missouri Cardiology works closely with our Cardiology Department and Cardiac Rehabilitation Department to care for patients right here on our campus.

### Cardiovascular exams provided right here at WMMC:

- Cardiac Stress Testing
- Dobutamine Stress Echocardiogram
- Nuclear Stress Test
- Stress Echocardiogram
- Rhythm Monitoring (such as 24-Hour Holter Monitor Testing or 30-Day Event Recorder)
- Electrical Cardioversion
- Electrocardiogram (EKG/ECG)
- Exercise Tolerance Testing
- Heart Scans
- Transesophageal Echocardiograms (TEE)

### Cardiac Rehabilitation:

In addition to our cardiovascular exams, we offer Cardiac Rehabilitation, a comprehensive program, designed specifically for people who have heart disease. It focuses on educating patients about heart disease, helping to lower the odds of another cardiac event through lifestyle changes, and establishing an effective exercise routine in a safe, professionally monitored environment.

**For questions about Cardiac Rehabilitation,  
please call (660) 262-7538.**

## WHAT'S YOUR SCORE?

### Show your *heart* some love by getting a **Heart Scan!**

**The Heart Scan is a CT scan to evaluate an individual's risk for a heart attack by measuring the amount of calcium in the walls of your arteries that supply your heart with blood. This quick, safe and painless exam assesses your risk of heart disease and stroke for **ONLY \$50!****

*Give the gift of preventative heart health by purchasing a gift certificate for a loved one in our Diagnostic Imaging Department (located inside the Outpatient Entrance)!*

### You may benefit from this exam if you:

- Are a woman over the age of 50
- Are a man over the age of 45
- Have a family history of heart disease
- Have high blood pressure
- Are a smoker
- Are at least 20 lbs overweight
- Are diabetic

### Diagnostic Imaging Department
