Western Missouri Medical Center Foundation

Celebrates Project Completion with Unveiling of Donor Wall

In early 2019, it was announced that the WMMC Foundation would be raising funds for their first-ever capital campaign, "Advancing Cancer Care, Closer to Home." The goal was to raise \$330,000 to purchase equipment that would benefit the patients and families in the greater Johnson County community. This project would help detect, diagnose, and define the best cancer treatment regimen available.

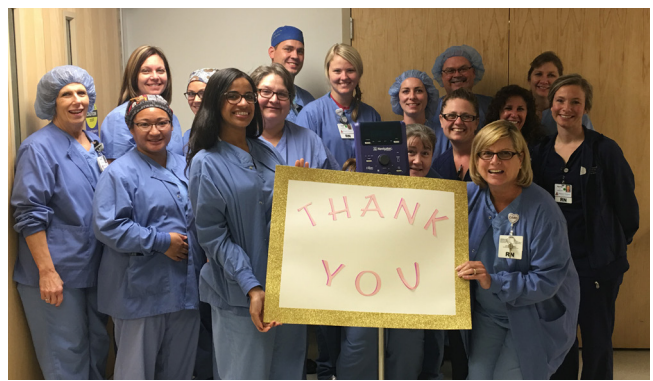

The project was broken down into four areas:

- **Endobronchial Ultrasound Bronchoscopy (EBUS) Machine:** A minimally invasive but highly effective procedure used to diagnose and stage lung cancer.
- **Portable Ultrasound:** Used to diagnose, monitor, and treat medical problems, including cancer.
- **Radioactive Navigator:** Allows the surgeon to identify these specific nodes by injecting the patient with a tracer the navigator can identify.
- **Family Comfort Suites:** These suites will provide a patient's family a private room to relax overnight to be close to their loved one.

A view into our Family Comfort Suites

To signify the completion of the \$330,00 project, the WMMC Foundation unveiled their donor wall, which is located directly inside of the WMMC Main Entrance near the Courtyard Café. The project completion was made possible through many gifts made to the WMMC Foundation in the past two years.
